Western Birds solicits papers that are both useful to and understandable by  
amateur field ornithologists and also contribute significantly to scientific  
literature. The journal welcomes contributions from both professionals  
and amateurs. Appropriate topics include distribution, migration, status,  
identification, geographic variation, conservation, behavior, ecology, population  
dynamics, habitat requirements, the effects of pollution, and techniques for  
censusing, sound recording, and photographing birds in the field. Papers of  
general interest will be considered regardless of their geographic origin, but  
particularly desired are reports of studies done in or bearing on the Rocky  
Mountain and Pacific states and provinces, including Alaska and Hawaii,  
western Texas, northwestern Mexico, and the northeastern Pacific Ocean.  
Send manuscripts to Philip Unitt, San Diego Natural History Museum,  
P.O. Box 1390, San Diego, CA 92112. For matter of style consult the  
Suggestions to Contributors to Western Birds (8 pages available at no  
cost from the editor) and the Council of Biology Editors Style Manual  
available for $24 from the Council of Biology Editors, Inc., 9650 Rockville  
Pike, Bethesda, MD 20814).  
Reprints can be ordered at author’s expense from the Editor when proof is  
returned or earlier.  
Good photographs of rare and unusual birds, unaccompanied by an article  
but with caption including species, date, locality and other pertinent  
information, are wanted for publication in Western Birds. Submit photos  
and captions to Photo Editor. Also needed are black and white pen and  
ink drawings of western birds. Please send these, with captions, to  
Graphics Manager.
